

Environmental Quality Incentive Program (EQIP): Upper Arkansas River Watershed-Wildlife
Screening and Data Collection Worksheet (C4)

Part I. Producer/Land Unit Information										
Producer/ Group Name:				Tract Number(s):						
				Farm Number(s):						
Kind of Entity or Joint Operation:				Application's Total Treated Acreage (TA):			225.0			
				Joint Cooperative Agreement (JA):			<input checked="" type="radio"/> Yes <input type="radio"/> No			
Location:	Walsenburg, CO Field Office			Contract Financial Assistance Request:	\$37,000.00	No. of Entities (JA):	2			
Planner:	T. Arnhold	Date:	06-Apr-09				Total Points:	102.73		
Priority:	HIGH PRIORITY			Minimum Number of Points Required: > 32			QUALIFIED			
Part II. Screening Tool										
1.	Does the applicant (a) have a current conservation plan in place for the requested practices that complies with current NRCS conservation planning policy with completion and documentation of the 7 deliverables in the Colorado Conservation Planning STATEMENT of WORK; (b) is there sufficient indication that applicant is ready, willing, and able to complete a contract; (c) has the current plan been reviewed and site visit made to confirm that the proposed practices are still needed and feasible to address the stated resource concerns; and, (d) has a SE Colorado wildlife partner concurred with the developed plan? (If any of a, b, c, or d is "no" answer NO to the question).						YES			
2.	Has the applicant within the past 3 years (a) had a previous cost-share contract that was cancelled or terminated due to lack of progress OR, (b) where the installed practices failed due to lack of maintenance, OR (c) has the applicant previously declined an approved funded application for reasons other than technical, or drought related reasons? (If any of a, b, or c is "yes", answer YES to question)						NO			
If both #1 and #2 are "no" application is LOW priority; if #3 is "yes" application is LOW priority. If application is LOW priority, you can stop, otherwise go to Question #4.										
3.	(A) Will the applicant's goals be enhanced through leveraging funds from non-federal external source(s) other than from the applicant(s) ? (B) Does the project favor either (a) a State species of special concern, State threatened species, Federal candidate species, or a declining species OR (b) a State endangered or Federal threatened or endangered species ? If the answer to either question is "yes", select YES from the list.						YES			
If #3 is "yes", application is HIGH priority, if "no" the application is LOW priority.
